

## Lilitab Pro Desk Mount

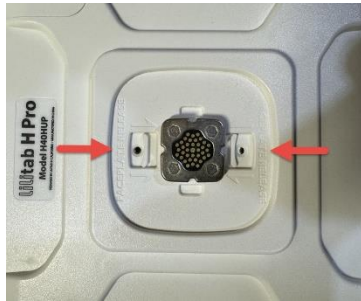

### Shipment Content:

- 1 x Countertop Basic Mount
- 1 x Compact Metal Base
- 4 x Compact Base Screws
- 1 x Phillips Screwdriver
- 1x Key

### Quick Setup:

1. To **open the faceplate**, squeeze & hold the 2 buttons at the back of the faceplate while sliding the bezel upwards (opposite to the RFID reader).

2. Connect the **NFC reader** to the USB charging cable, **switch the toggle to Bluetooth** and place it in the **Lilitab case**.

3. Connect the **iPad** to the **lightning charging cable found inside the Lilitab case** and then place the iPad in the Lilitab case.

4. Secure the **iPad** into the case by sliding in the **faceplate** towards the NFC reader and clicking it into place. *Verify it is properly locked.*

5. Please follow the **NFC reader** connection steps from your registration software provider. *Do not add Bluetooth device right away via iPad settings.*

6. Please follow the **NFC reader** connection steps from your registration software provider. *Do not add Bluetooth device right away via iPad settings.*

7. Place the completed faceplate onto the **Mag Dock** of **Lilitab stand**. *It should sit tight and secure.*
8. With the provided key, lock the case on to the desk stand. *Keep the key secure for removal.*
9. Adjust the viewing position by tilting the **iPad** up and down.

10. Once the **iPad** is set up and attached to the **Lilitab floor stand**, your device will be ready for use.
