

## Lilitab Pro Floor Mount

### Shipment Content:

- 1 x Floor Basic Mount
- 1 x Floor Base
- 1 x Base Housing
- 4 x Base Screws
- 1 x Phillips Screwdriver
- 1x Key

### Quick Setup:

1. Make sure both cables are fed through the rear notch of the post. Fasten the post to the base plate with provided screws (shorter) and screwdriver, **aligning with rear openings.**

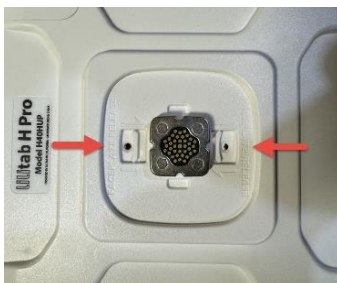

2. Slide the **base housing cover** down and position the cables underneath the cable cut out through the base housing towards the back.

3. Fasten the **housing cover** to the **base** using the 2 remaining screws (longer) and then attach the **base housing cover** by sliding it into place.

4. To **open the faceplate**, squeeze & hold the 2 buttons at the back of the faceplate while sliding the bezel upwards (opposite to the RFID reader).

5. Connect the **iPad** to the charging cable and place it in the **Lilitab case**.

6. Connect the NFC reader to the USB charging cable, **switch the toggle to Bluetooth** and place it in the **Lilitab case**.

7. Secure the **iPad** into the case by sliding in the faceplate towards the **NFC reader** and clicking it into place.

8. Please follow the **NFC reader** connection steps from your registration software provider. *Do not add Bluetooth device right away via iPad settings.*

9. Place the case **horizontally** onto the **Lilitab stand** and lock it in place using the **\*provided key.\***  
**\*PLEASE BE CAREFUL NOT TO MISPLACE THE KEY. WITHOUT THE KEY, YOU WON'T BE ABLE TO OPEN THE CASE\***

## Lilitab Pro Floor Mount

10. Adjust the viewing position by tilting the **iPad** up and down. Use the small Hex Key to adjust the tilt.
11. Once the **iPad** is set up and attached to the **Lilitab floor stand**, your device will be ready for use.

### **Troubleshooting:**

*What if...*

... my NFC reader does not light up?	<ol style="list-style-type: none"> <li>1. Inspect the cable at both the power cable and reader ends.</li> <li>2. Rotate the iPad's faceplate to see if it charges in various orientations.</li> <li>3. Ensure that the reader is powered on.</li> </ol>
... my iPad is not charging?	<ol style="list-style-type: none"> <li>1. Inspect the cable at both the power cable and iPad ends.</li> <li>2. Rotate the iPad's faceplate to see if it charges in various orientations.</li> </ol>
... the viewing position won't remain fixed?	Use the supplied Allen wrench to adjust the viewing angle according to your preference.
